

Cloud Surf Inn

A modern take on improving the hotel experience.

01

Finding a Room

See how a customer's preferences are matched to a room and a key is generated to the room instantly.

02

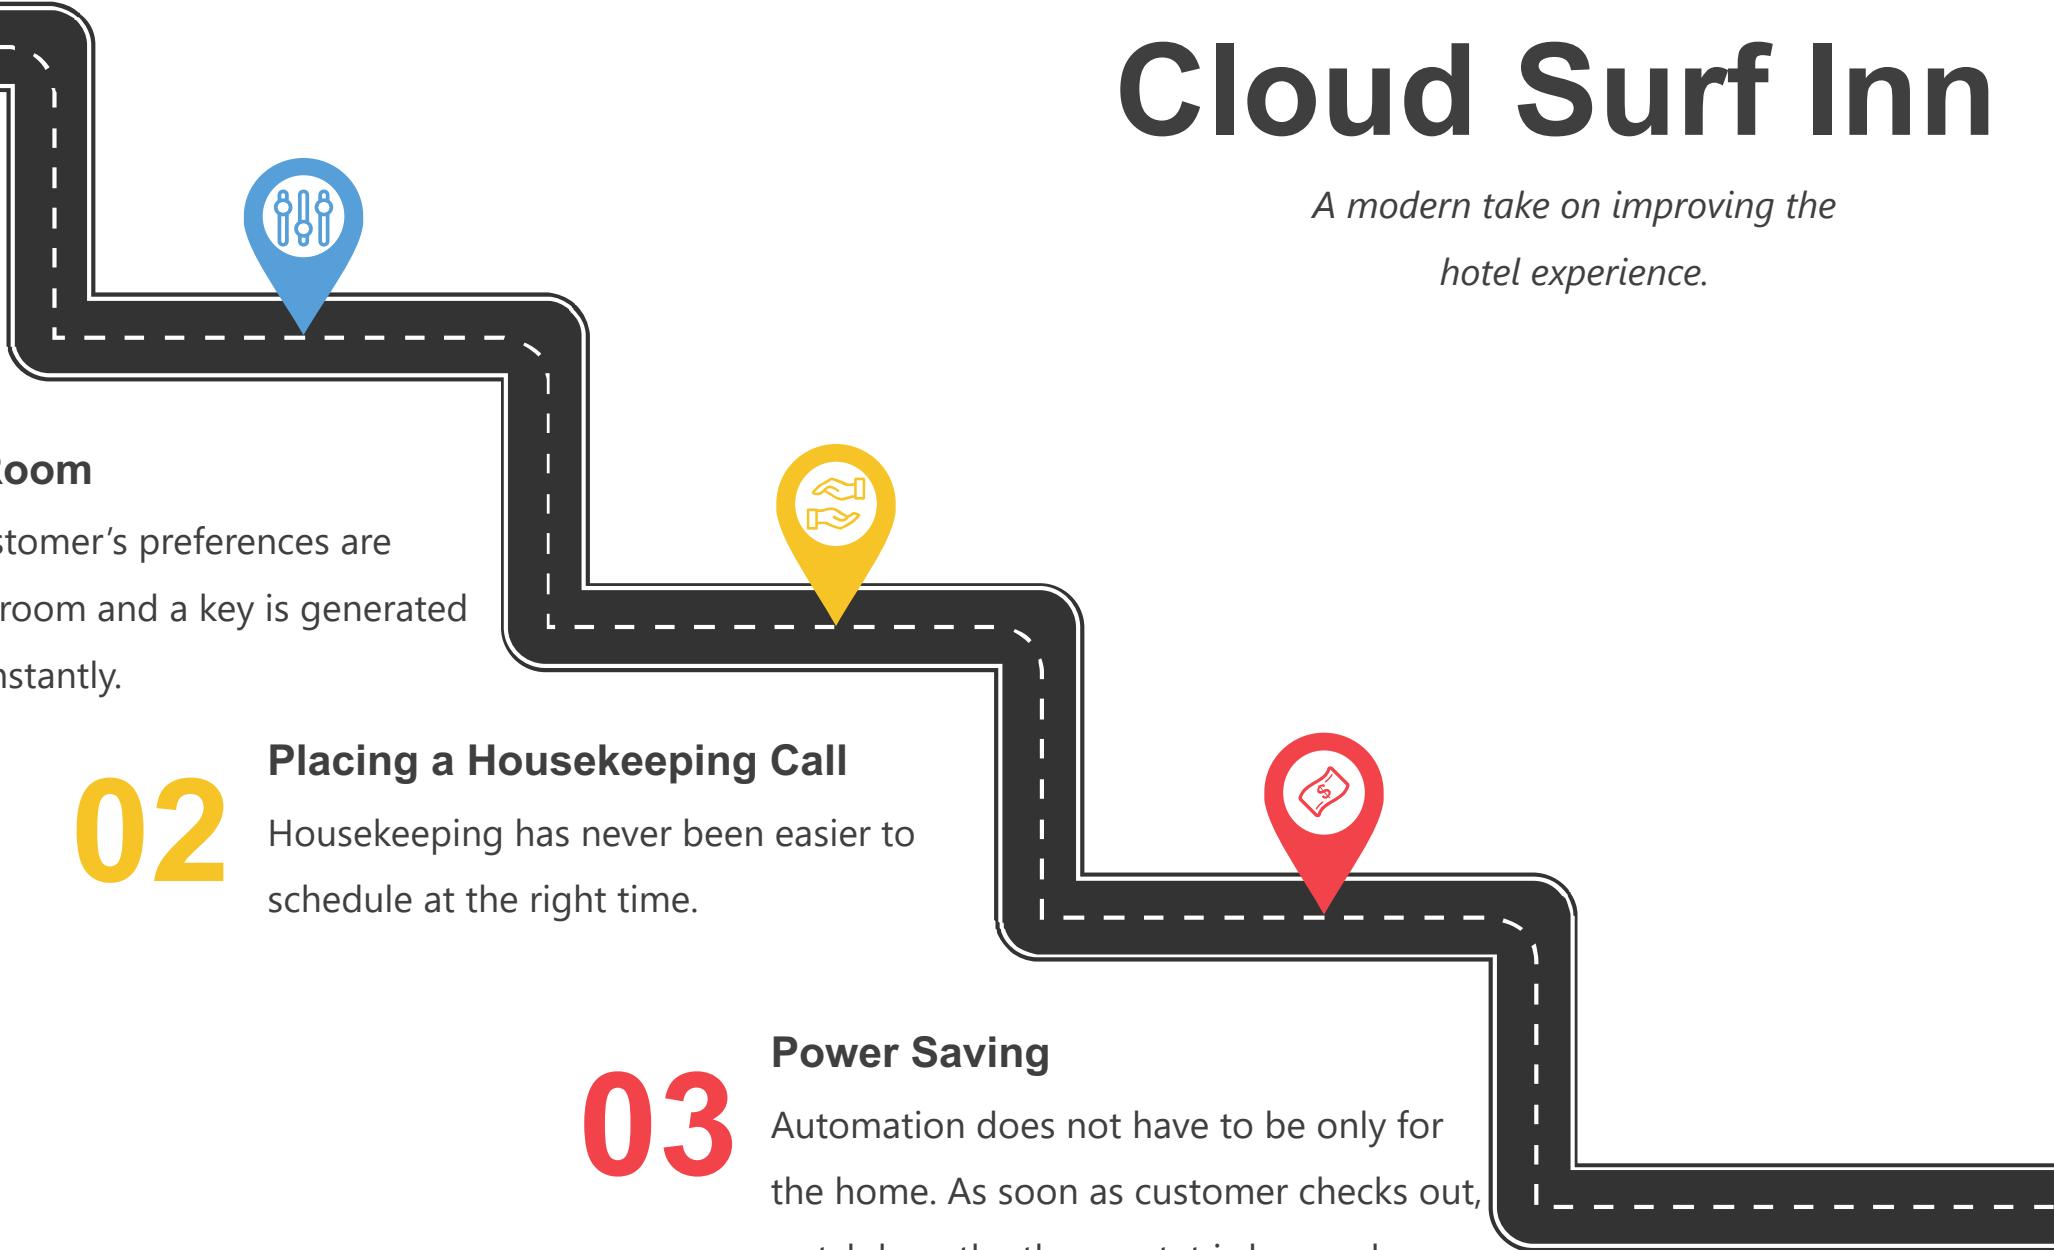

Placing a Housekeeping Call

Housekeeping has never been easier to schedule at the right time.

03

Power Saving

Automation does not have to be only for the home. As soon as customer checks out, watch how the thermostat is lowered.

Customers want a room that aligns with their needs.

Here they can:

- » Input their preferences
- » Find a room
- » Book the room and receive their key

Customers want easy housekeeping scheduling.

Here users can:

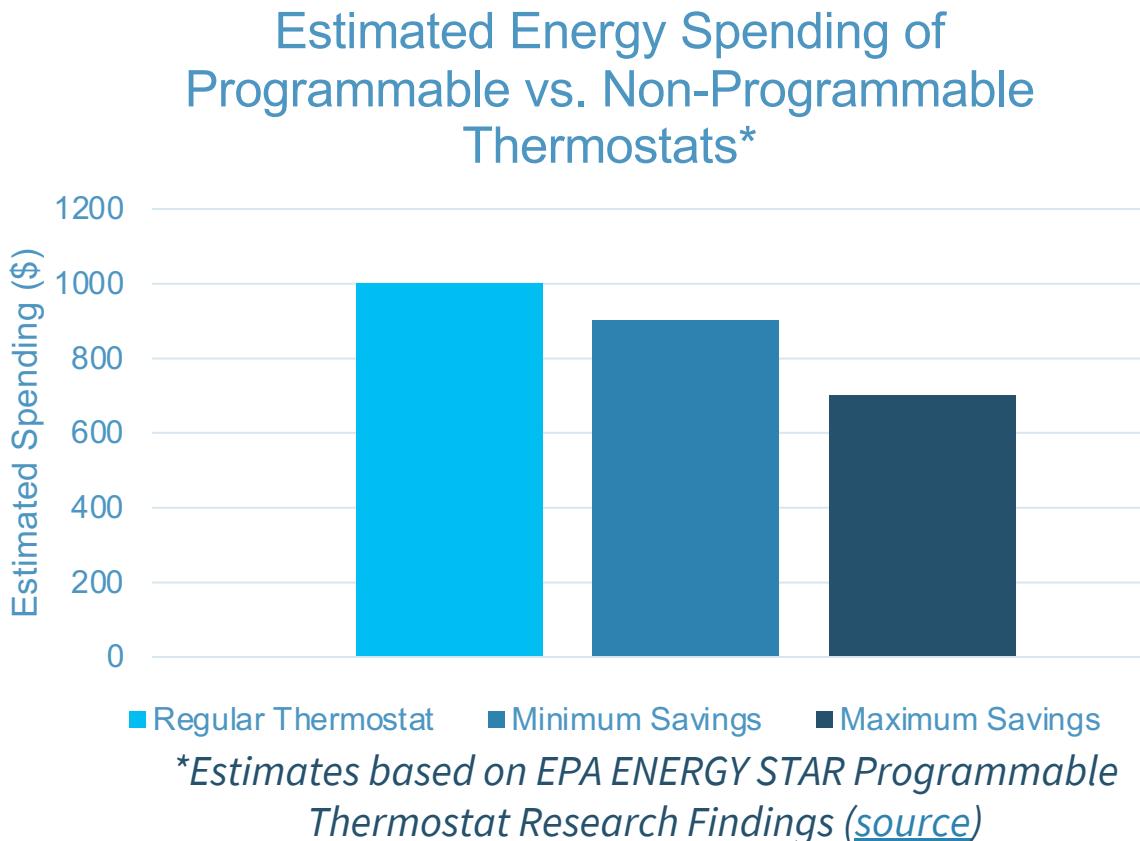

- » Schedule housekeeping for a specific time
- » Maids view the request and can complete it

Energy efficiency is paramount to a modern system.

When a customer checks out:

- » The heat/cooling is automatically turned off to conserve energy.
- » No manual input is required.

Plan for the Rest of the Semester
